

STAPLES®

Business Advantage®

Make More Happen®

**Clean up,
stay productive.**

Brighten up your office with ease

Tools to help your workplace shine

A clean office boosts productivity

Although it's often overlooked, cleanliness is a huge factor in productivity. A fresh and clean office will provide health benefits, reduce stress levels, and help your team stay focused.

Balance clean and green

Clean "green" by using eco-labeled cleaning agents, super concentrated chemicals and dosing aids. Ask our facilities experts for advice on minimising your environmental impact by selecting eco-conscious cleaning solutions.

One Source Solution

Everything your business needs, in one place

Keep your office clean with effective and affordable solutions

Cleaning products

Keep your customers and employees healthy and safe with a complete range of cleaning solutions designed around your budget and needs. Choose from Staples' own brand and leading brand-name products.

Washroom consumables and hygiene

Use a variety of cleaning supplies to make sure you're banishing germs effectively. Our range includes everything from hand-soap to disinfectants, soap dispensers, cloths and wipes – helping you fight bacteria on every front.

Waste management

Managing waste around the office is easy with reliable bin bags, conveniently placed recycling bins and a broad assortment of brooms, mops and vacuum cleaners.

Cleaning tips from the experts

Sustainability made simple

If you're looking for quality cleaning supplies that are also eco-conscious, look for the Nordic Swan Ecolabel. Nilfisk has 149 Eco-labelled products in their assortment of chemicals and utensils for professional cleaning - making them the ideal source of cleaning solutions that contribute to sustainable consumerism and a better climate.

Concentrate on cleaning

Spring is the perfect time to create a clean work environment. To make this happen, many of us buy products containing up to 99% water. Using these diluted products not only harms the environment, it also burdens your budget with unnecessary costs. Concentrated cleaning products like Diversey's SmartDose system offer a great alternative, dramatically reducing costs and effort at different levels.

Staples offers a range of Nilfisk and Diversey products at www.staplesadvantage.co.uk

The diagram below shows how Diversey products can help you be more sustainable by minimising waste, over-dosage and CO2 emissions from transportation compared to standard cleaning products.

Cleaning products	Waste	Over-Dosage	Transport
Ready to use			
Standard concentrate			
Diversey super concentrates
